FEATURED SPEAKERS

Dr. Siew Tuck Wah

CHAIRPERSON (SINGAPORE)

Founder & Medical Director, Radium Medical Aesthetics

Widely regarded as one of the experts in the field today. Dr Siew Tuck Wah has spent over 17 years of experience in anti-ageing and aesthetic medicine. He performs non-invasive treatments including lasers, fillers and botulinum toxin, with a strong focus on natural-looking rejuvenation. Passionate about skin health and safe clinical practice, Dr. Siew is active in teaching, research and writing. He regularly trains doctors from Singapore and is invited regularly to speak at local and international conferences. Sharing his academic experience and knowledge and most importantly to impart safe practice techniques.

Dr. Tino Solomon

UNITED KINGDOM

Chief Medical Officer,
DrMedispa London

An internationally recognised authority in scar management, Dr. Tino Solomon is known for laser remodelling of burns and complex scars and for pioneering novel energy-based treatments in aesthetic and reconstructive medicine. A KOL for Alma Lasers and other leading organisations, he has published in Surgical Endoscopy, the Aesthetic Journal and the Journal of Cosmetic Dermatology, and contributed to the Oxford Handbook of Clinical Surgery. UCL-trained with BSc (Hons), MBBS and MRCS, he is also Lead Trainer at the DrMedispa Academy, a mountain medicine specialist and an award-winning photographer.

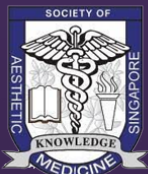

Dr. Elias Tam

SINGAPORE

Founder & Medical
Director, EHA Clinic

Dr. Elias Tam has over 30 years of medical experience and more than 20 years in aesthetic medicine. His work centres on anatomical assessment, injectable techniques and energy-based treatments. A Clinical Lecturer for University College London's Master of Surgery in Aesthetic Medicine programme, he is also World President-Elect of the International College of Surgeons. Dr Tam founded MyFace Cadaveric Workshop, which has trained over 1,000 doctors across Asia-Pacific, and he contributes widely to public education through media and digital platforms.

FEATURED SPEAKERS

Dr. Lee Chul Hee

SOUTH KOREA

Medical Director,
AMRED Clinic

Dr. Lee Chul Hee is Medical Director of AMRED Clinic in Seoul, Republic of Korea. A graduate of Eulji University School of Medicine, he specialises in non-surgical facial rejuvenation and energy-based aesthetic treatments. In 2024, he received the Minister's Award from Korea's Ministry of Health and Welfare. Dr. Lee has presented on Titanium and Accent Prime treatment trends for Alma China physicians and is a member of the Korean Academy of Obesity and Aesthetic Treatment, as well as the Korean Association for Laser, Dermatology and Trichology.

Dr. Angela Hwee

SINGAPORE

Medical Director,
Harmony Aesthetics
Clinic

Dr Angela Hwee is the Medical Director of Harmony Aesthetics Clinic. She has been actively involved in education, regularly training fellow practitioners in advanced techniques, treatment customisation, and best-in-class patient outcomes. Her contributions to the industry extend beyond clinical practice, as she actively participates in regional and international conferences, sharing her expertise and shaping the future of aesthetic medicine.

Dr. Jonathan Lee

SINGAPORE

Senior Consultant
Hand Surgeon

Dr. Jonathan Lee is a Senior Consultant Hand Surgeon specialising in plastic and orthopaedic reconstructive surgery of the hand, wrist and upper limb. His expertise includes peripheral nerve surgery, replantation, fractures, burns and trauma, microsurgery, arthroscopic and endoscopic surgery. A graduate from Trinity College Dublin, he completed postgraduate surgical training in Singapore, obtained Membership in the Royal College of Surgeons of Edinburgh in 2000 and a Master of Medicine in Surgery from NUS in 2001. His multidisciplinary training spans general surgery, orthopaedics, plastic surgery, emergency medicine and neurosurgery.

Dr. Ngiam Juzheng

SINGAPORE

Founder & Medical
Director, J Laser and
Aesthetics Clinic

An MBBS graduate from Singapore and MRCS member from Ireland, Dr. Ngiam is a certified laser physician with extensive experience in medical aesthetics. He is a global KOL and trainer for PharmaResearch Rejuran, APAC trainer and KOL for Sinclair College Ellanse, and an accredited trainer for Merz Aesthetics and Galderma Dysport. Passionate about clinical education, Dr Ngiam co-founded the Asian Centre of Aesthetics and Surgery in 2019 and has personally trained more than one hundred doctors in aesthetic procedures.
